

Virtual CxO Services from Leapfrog

Leapfrog recognizes the demand for high performing, outsourced expertise, providing relief for your internal resources by offering you one, dedicated partner for all of your needs. Our virtual CxO program is designed to give fractional support to clients seeking to grow organically and/or inorganically. Whether you're seeking strategic guidance, operational excellence, or transformative growth, our team of seasoned professionals is here to elevate your business.

Benefits of fractional CxO services:

- **Access to Expertise and Resources:** Gain access to high-caliber executive talent and tap into our extensive networks of partners.
- **Cost-Effectiveness:** Reduce overhead costs associated with traditional C-suite hires, including salaries, benefits, and overhead expenses.
- **Flexibility and Scalability:** Scale resources up or down based on business needs, engaging Leapfrog on a part-time, project-based, or interim basis, without long-term commitments.
- **Objective Perspective:** Benefit from an external perspective on strategic decision-making, as virtual CxOs offer recommendations without internal biases or politics.
- **Core Competencies:** Free up internal resources and allow company leadership to focus on core business functions and day-to-day operations.

Receive expert guidance and support to achieve long-term goals and objectives.

Leap ahead by aligning your IT operations and corporate growth goals. With 25 years of MSP, MSSP, CyberRisk Management, and now virtual CxO services, we help a broad array of companies simplify their IT operations while improving their resiliency and operations.

If you're ready to streamline your workforce planning that keeps pace with your business strategy, **Leapfrog is ready to help. Contact us: VCXO@LeapfrogServices.com**
